

# CURRICULUM FRAMEWORK POLICY

## Help for non-English speakers

If you need help to understand the information in this policy, please contact the school office.

**Phone:** 03 5234 6463

**Email:** [andrew.rogers2@education.vic.gov.au](mailto:andrew.rogers2@education.vic.gov.au)

## PURPOSE

The purpose of this policy is to outline Beeac Primary School's curriculum framework including:

- a curriculum plan showing how the eight learning areas will be substantially addressed and how the curriculum will be organised and implemented
- an explanation of how and when the curriculum and teaching practice is reviewed
- an outline of how the school delivers its curriculum.

## DEFINITIONS

*Curriculum* covers all the arrangements the school makes for students' development and learning. It includes the course content, student activities, teaching approaches, the way in which teachers and classes are organised and decisions on the need for and the use of facilities and resources.

## CHILD SAFETY

Beeac Primary School is a child safe organisation which welcomes all children, young people and their families. We are committed to providing environments where our students are safe and feel safe, where their participation is valued, their views respected, and their voices are heard about decisions that affect their lives. The school adheres to the [Ministerial Order 1359](#) which sets out how the Victorian Child Safe Standards apply in school environments and will ensure that curriculum and assessment practices are developed inclusively to meet the needs of all students.

## POLICY IMPLEMENTATION

Beeac Primary School will provide a student-centred learning environment where students feel safe to be risk takers that will foster critical thinking and have opportunities to give and receive feedback on their learning to one another in a respectful way.

### Curriculum Development

Beeac Primary School's school curriculum implements the Victorian Curriculum. All students have the right to access curriculum which addresses their academic, physical and social needs. The school is responsible for curriculum delivery and design. Curriculum documents are available to staff and parents/carers. Where applicable Beeac Primary School will provide a variety of programs and interventions that will address the specific needs of students in relation to gender, special learning needs, disabilities and impairments, giftedness and students from language backgrounds other than English. This might include:

- a. An Individual Learning Plan for each student at risk academically outlining in detail the students' learning goals.
- b. The development of a Student Absence Plan for when a child has an extended absence

# CURRICULUM FRAMEWORK POLICY

from school.

- c. A Behaviour Action Plan to develop strategies for students experiencing behavioural difficulties.

Beeac Primary School curriculum covers all the arrangements the school makes for students' development and learning. It includes the course content and understandings, student activities, teaching approaches, the way in which teachers and classes are organised and decisions on the need for and the use of facilities and resources.

Beeac Primary School will ensure that the curriculum meets the minimum standards with:

- **A time allocation per each of the eight learning areas** as defined by the Victorian Curriculum
- **A explanation of how curriculum and teaching practice will be reviewed** (statement is at 3.4 of this Guide)
- **An outline of how the school will deliver its curriculum** - found in the Beeac Primary School scope and sequence documents.
  - **A whole school sequential and scaffolded curriculum**
- **A documented strategy to improve student learning outcomes** (found within the School Strategic Plan)

Beeac Primary School - Curriculum Time Allocations		
Subject	Year Level	Time Allocation per week
English	F-6	10 hours
Chinese	F-6	1 Hour
Maths	F-6	5 hours
Library	F-6	1 hour
Visual Arts & PA	F-6	1 hour
Science/Technology	F-6	1 hour
Health and PE	F-6	2 hour
LOTE (Chinese)	F-6	1 hour
Humanities	F-6	2 hours
Kitchen Garden programme (paddock to plate)	F-6 (Linked to science and sustainability)	Offered at various times through the year
		25 hours available

## Literacy

- The literacy program at Beeac Primary School is focussed on developing competent, confident and independent, readers and writers through a differentiated curriculum model. The differentiated curriculum model means that classroom teachers assess students before a unit of instruction to determine the learning goals of each child. Teachers then work to plan the teaching focus in response to student differences in readiness, interest and learning needs. To assist the teaching teams, a mentor is in place to support and guide planning, and curriculum delivery.

# CURRICULUM FRAMEWORK POLICY

- An English lesson will involve daily teaching of a range of literacy skills and knowledge through demonstration, guided practice and independent practice.

## Numeracy

- At Beeac Primary school our Numeracy program is taught daily across all classrooms. There is a close collaboration between staff to ensure that all aspects of numeracy in the Victorian curriculum are covered throughout the year. Numeracy is taught every day with two days devoted to measurement and three days to number.
- Numeracy lessons begin with a warm up activity, followed by explicit instruction that models the learning intention and independent practice with support from the teacher. During independent practice, students work on a task designed by their teacher to meet their learning needs. At the conclusion of the lesson students regroup to share their learning, address any existing misconceptions and revisit the learning intention.
- Open ended tasks engage students in problem solving with explicit links to real world applications. Open ended tasks include: an enabling prompt, a question and an extension prompt which support all students on their mathematical journey.

## Languages

- Languages are best learned by practising them, which includes listening and later recognising symbols and/or words to be able to read.
- At Beeac Primary School we offer a Chinese LOTE program F-6. Students participate in a range of classroom activities.
- Students develop their vocabulary and oral language skills through activities such as singing, using gestures, role plays and games involving asking and answering questions.

## Science

- The Beeac Science program provides opportunities for students to develop an understanding of important scientific concepts and processes, the practices used to develop scientific knowledge, the contribution of science to our culture and society, and its applications in our life.
- We cover the four main areas of science: earth and space science, chemical science, physical science and biological science.

## Technology & Digital Literacies

- Digital literacies are integral tools in the learning process, and have the potential to extend student learning capabilities, engaging them in understanding concepts and processes in areas of learning and facilitating change in learning, thinking and teaching.

## Visual, Media and Performing Arts

At Beeac teaching practice in the arts is explicit and purposeful. Learning in the arts is underpinned by the belief that all students can learn the skills, knowledge and understandings from the content and outcomes of the curriculum. Our teaching programs allow students to build on previous experiences, to practise skills and to apply knowledge in different contexts.

- The Visual Arts curriculum is carefully scaffolded across year levels and aligns to the Inquiry Based learning where possible. A visiting teacher provides our school with a term plan after

# CURRICULUM FRAMEWORK POLICY

consulting with staff so that her program integrates as much as possible with the schools termly integrated project.

- Students work with a visiting teacher to develop their dancing, playing and singing skills around a variety of performance based experiences. These include performing at the Geelong schools music and movement festival and our traditional, annual end of year concert. Wherever possible the teaching aligns with the Victorian Curriculum.
- Students learn about why people dance and how dance can be used to tell a story. They look at Indigenous Stories and how people from different cultures express themselves through dance.
- Students are introduced to drama through games and improvisation. They learn about a number of drama elements including role, situation and focus.

## Health and Physical education, sustainability

- We offer a variety of opportunities for students to develop their motor skills and increase their level of personal health and fitness. Students develop a broad spectrum of movement skills, personal and social skills, knowledge, motivation and confidence to engage in healthy activity throughout their lives.
- Students have access to a range of school programs designed to improve every aspect of their fitness including AFL, athletics, netball and hockey. For two years we have offered out of school basketball.
- A garden area is used for the kitchen garden programme

## Assessment and Reporting

Beeac Primary School undertakes a range of student assessment and reporting activities to inform and support student learning.

Assessment is the ongoing process of gathering, analysing and interpreting, using and reflecting on data to make informed and consistent judgements about learners' progress and achievement to improve learning. Beeac Primary School has a comprehensive assessment schedule available on the school's website.

Reporting communicates comprehensive information about student learning and achievement in different forms to a range of audiences for a variety of purposes. Comprehensive reporting covers three major areas:

- **Student reporting:** Beeac Primary School reports to parents/carers using student reports, to strengthen family partnerships by engaging teachers and families in regular and meaningful communication about students' learning needs
- **School reporting:** Beeac Primary School reports to the local community via the annual report, providing a concise summary of the school's achievements and progress. This is available on the school's website
- **System reporting:** The Department reports Beeac Primary School's systemic improvement to the broader educational community through state-wide and national reports, providing statistical and related information about Victorian educational outcomes.

# CURRICULUM FRAMEWORK POLICY

Student reports for parents/carers are confidential documents that schools are required to produce at least twice a year using a five-point rating scale. The purpose of student reports is to:

- report student progress and achievement in Years Prep to 6
- provide parents/carers with clear, individualised information about progress against the achievement standards
- identify the student's areas of strength and areas for improvement.

**Note:** There may be specific instances where Beeac Primary School decides in partnership with an individual student's parents/carers that it is unnecessary to provide a report for that student.

In addition to producing student reports, schools will offer a parent-teacher conference to discuss the student's progress.

Student learning outcomes data will be reported in the Annual Report to the School Community provided to the DET, and also available on the State Register maintained by the Victorian Registration and Qualifications Authority. See *Assessment and Reporting Policy* for more information.

## 1. Program Development

Beeac Primary School will provide a variety of programs that will address the specific needs of students in relation to gender, special learning needs, disabilities and impairments, giftedness and students from language backgrounds other than English.

The school will identify and cater for the different needs of particular cohorts of students when developing its curriculum plan. In developing its curriculum plan the school will provide a broad range of educational pathways to ensure improved student outcomes.

The Victorian Curriculum will be used as a framework for curriculum development and delivery at Foundation - Year 10 in accordance with Department of Education and Training (DET) policy and Victorian Curriculum and Assessment Authority (VCAA) guidelines. The school will provide at least 25 hours student instruction per week.

## 2. Program Implementation

Teachers at the general staff meeting will determine the curriculum program for the following term and year, based on student demand and the needs of the school's curriculum plan to maintain balance and a broad provision of subject choices.

To facilitate this implementation, curriculum documentation and assessment schedules are produced to reflect the Victorian Curriculum.

The DET requirements related to the teaching of Languages, Physical Education, and New Arrivals Program/English as an Additional Language (EAL) is implemented through our EAL, bilingual and LOTE programs.

# CURRICULUM FRAMEWORK POLICY

The use of Information and Communications Technologies (ICT) will be integrated across the curriculum to support the improvement of teaching and learning outcomes and adheres to DET's School Policy & Advisory Guide (see resources)

Classroom teachers will be required to review curriculum resources (where applicable), and prepare a comprehensive annual program budget and present these to the Business Manager as part of the school's annual budget

### 3. Student Wellbeing and Learning

Beeac Primary School will embed student wellbeing in all learning experiences by aligning student welfare and curriculum policies and creating an educational environment and curriculum that is inclusive and meaningful to all students:

- providing an integrated and comprehensive curriculum approach that incorporates the personal and social issues of students into their daily learning experiences
- providing a flexible, relevant, inclusive and appropriate curriculum
- accommodating student developmental needs within the Victorian Curriculum stages of schooling

### 4. Students with additional needs and disabilities

The DET and Beeac Primary School is committed to delivering an inclusive education system that ensures all students have access to a quality education that meets their diverse needs. Beeac Primary School will liaise with DET to provide suitable programs and resources to support the delivery of high-quality schooling for students with disabilities, those from culturally and linguistically diverse backgrounds, and other at risk or vulnerable students.

### 5. Koorie Education

Beeac Primary School is committed to providing culturally appropriate and inclusive programs to Koorie students. We provide suitable programs and resources though:

- working in partnership with the Koorie community to develop an understanding of Koorie culture and the interpersonal relationship with the Koorie community, for example via Local Aboriginal Education Consultative Groups (LAECG)
- supporting the development of high expectations and individualised learning for Koorie students
- creating an environment that respects, recognises and celebrates cultural identity through practice and curriculum
- implementing initiatives and programs that meet student needs and in partnership with the Koorie community.

### 6. Program Evaluation and Review

Beeac Primary School staff will meet regularly at PLC meetings to track whole school data and identify potential curriculum areas that require focus. Data analysed will include, but is not limited to, NAPLAN, On Demand, school based testing, teacher judgments based on learning outcomes in

# CURRICULUM FRAMEWORK POLICY

the Victorian Curriculum.

Each year the school will evaluate the curriculum to ensure curriculum domains, dimensions and standards of the Victorian Curriculum meet minimum requirements and are updated to reflect current school initiatives. These meetings will inform future curriculum planning.

## Managing student records

Schools are required to create, manage and dispose of electronic and hardcopy public records (i.e. student records) in accordance with the Public Records Act 1973 (Vic) (PRA). Beeac Primary School operates a system for managing electronic and hardcopy records to ensure the authenticity, security, reliability and accessibility of these records.

**Note:** The Department has developed policy to assist schools to meet legislative and business requirements for the creation, storage and disposal of records.

## COMMUNICATION

This policy will be communicated to our school community in the following ways:

- Included in staff induction processes and staff training
- Available publicly on our school's website
- Discussed at staff briefings/meetings as required
- Included in enrolment packs
- Discussed at parent information sessions
- Discussed at student forums
- Reminders in our school newsletter
- Hard copy available from school administration upon request
